

Kenneth Rowe What Have You Done for Me Lately?

Las Vegas, April 3-5, 2007

Areas of Responsibility

- CAIS Web Development
- CAIS/CostWorks Customer Support
- CAIS Training
- Ad Hoc Reporting
- Care and Nurturing of Database and Application Servers

What Is CAIS?

- Condition Assessment Information System
- Web-Based Software Application that interfaces with an Oracle Database
- Uses RS Means Line items and Assemblies
- Uses DOE and Industry Standard Models
- Used to produce Deferred Maintenance Costs that are Reported to FIMS

CAIS Web Development

- Focused on Usability
- Five Releases 1.2 – 1.6
- 11 Out of 25 Top 5's Completed (I tried to do something for everyone.)
- 6 other High Priority Items Completed
- Additionally, 33 Enhancements/Bug Fixes
- 2007 Costing Update

CAIS Web Development Highlights

- Made all screens more compact
- IU List is now Sortable
- Added Mission Dependent and Property Type from FIMS as View Only
- Retrieve by IU by Tracking Number and by Work Order

CAIS Web – Pantex Areas of Concern

- Steve Patterson's Spreadsheet
- 11 out of 46 items have been addressed

Customer Support/Training

- Dozens of calls and e-mails responded to.
- Provided CAIS Administrator Training to Savannah River in January of 2007.

Ad Hoc Reporting

- Got it to Work
- Developed a Unified View of FIMS data
- Created a CAIS Area with an IU Template – Not yet available
- Created 3 Reports for NNSA

Care and Nurturing of Application and Database Servers

- Respond to Security Scans
- Software Updates
- Help with Database Backups
- Installed Entrust Certificate

The Future

- What needs to be done so that it is easier for you to get your job done?
 - More reports / Additional filtering capabilities
 - Ad Hoc Reporting
 - Enhancements/Bug Fixes
 - Interface to Maximo or Passport.
 - Other
